

BenefitMall brings convenience to your employees through PayFocus Pro™ Employee Self-Service.

BenefitMall PayFocus Pro solution is designed to give employer partners the best payroll processing experience available. Employee Self-Service is part of our integrated system that connects employees, managers, administrators and payroll. The Employee Portal centralizes employee information such as current salary and rates, pay history, present deductions and so much more. Spend more time concentrating on the success of your business, the needs of your employees and your professional goals when you use BenefitMall PayFocus Pro Employee Self-Service.

PAY HISTORY

Provides your employees with payroll history and the ability to view previous pay stubs.

DIRECT DEPOSIT

Streamline the overview of how employees pay is distributed and allows for allocation of funds to several accounts by percentage.

DEDUCTIONS

Gives the ability to view recurring deductions from employees checks, such as, 401K or health plan contributions.

W-4 INFORMATION

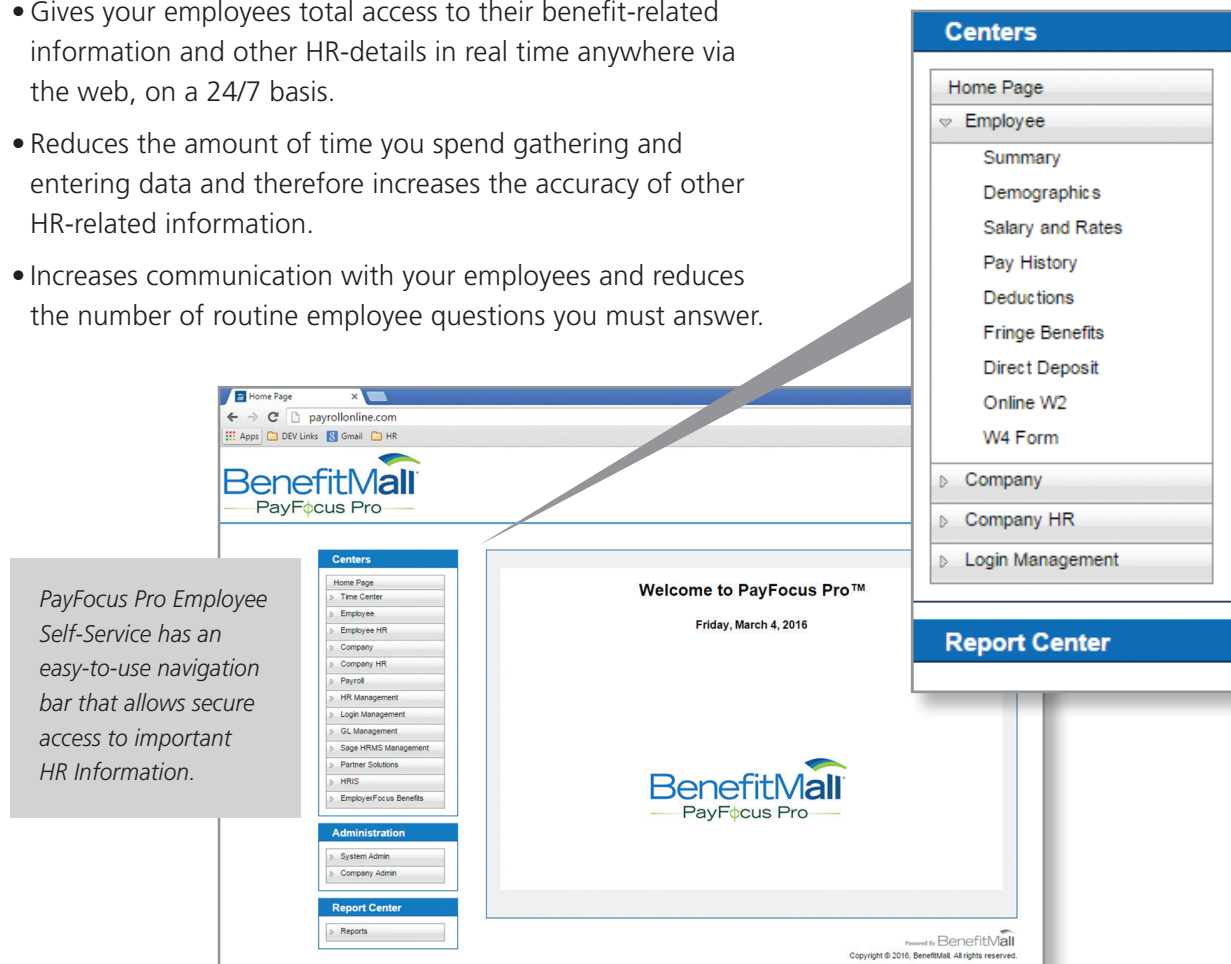

Allows your employees a secure point of access to view and make changes to current Federal withholding status.

Put the power in your employees' hands.

Companies are responsible for managing all aspects of the employment for their employees. From pay history, present deductions, and current salary and rates, these tasks may seem simple to complete but in reality are intricate and time consuming. Allow your employees to directly access and manage key employee information with the Employee Self-Service Portal.

Key Benefits of PayFocus Pro Employee Self-Service:

- Gives your employees total access to their benefit-related information and other HR-details in real time anywhere via the web, on a 24/7 basis.
- Reduces the amount of time you spend gathering and entering data and therefore increases the accuracy of other HR-related information.
- Increases communication with your employees and reduces the number of routine employee questions you must answer.
